

Dr. Shalin D. Shah

Consultant Neurologist, ANSA Clinic, Ahmedabad, Gujarat

Associate professor, SVPIMRS, Ahmedabad, Gujarat

I am a practicing neurologist with over 24 years of clinical and academic experience. I completed my DM in Neurology at the Sanjay Gandhi Postgraduate Institute of Medical Sciences (SGPGI), Lucknow, under the mentorship of the late Prof. U. K. Mishra. To continue legacy of academic excellence and higher medical education, I have served on as the faculty at SVPIMRS, Ahmedabad, for over 15 years, during which I have had the privilege of mentoring more than 20 DM super-specialty residents.

My commitment to continuous academic enhancement led me to complete an observership in Long-Term EEG Monitoring for Epilepsy at the National Hospital for Neurology and Neurosurgery, Queen Square, London, in 2012. My scholarly work also includes 28 research publications across peer-reviewed national and international journals and many more presentations on various platforms.

Beyond academic research and clinical instruction, I have actively contributed to our professional community. I served on the organizing committee for IANCON 2012 (Ahmedabad) and hosted the National Epilepsy Conference (ECON 2020) as its Organizing Secretary.

This year, I am contesting for the post of Executive Committee Member of the Indian Academy of Neurology (IAN). My vision is to foster an inclusive, transparent environment for all neurologists while actively advancing research opportunities, academic initiatives, and professional mentorship across the country. I remain deeply committed to serving the Academy with integrity, sincerity, and the highest ethical standards.
