She is the Founder of the start-up “Artificial Intelligence in Neurology” [www.AtlNeu.org](http://www.AtlNeu.org), NeuroVoice – Podcast and EduWAND: Educating Women about neurological diseases

**Contributions to Subsection**

- Organized webinars under the subsection
- Active participation in subsection meetings and position statements
- Promoted rural stroke awareness through collaborative projects

As Chair, I have initiated collaborative efforts, expanded outreach, and encouraged wider member participation. I wish to continue to consolidate these efforts, build sustainable academic and educational programs, and elevate the subsection's contribution to national stroke care and advocacy.
